will share their slides and discuss their Iranian heritage, and specific cities in Iran. Pictures represent two and three generation Iranians, taken during family visits to Iran, spread throughout three different cities: Tehran, the capital, Shiraz, known as the city of flowers and poets Saadi and Hafez, and Esfahan, the ancient capital of Iran with its historical Ali Quapu bazaar and towering domed mosques.

The Ommanis, founders of the American-Iranian Friendship Committee (AIFC), and the Shirazis, promoting peace and dialogue with Iran, will discuss political issues, particularly the imminent nuclear threat the U.S. has posed to Iran, and will speak about the many falsifications and misrepresentations about Iran and its government and people.

Refreshments will be served. All are welcome.
