Unitarian Universalist General Assembly

The 2008 Ware Lecturer, Van Jones.

On January 2, 2009 we will view: ***Van Jones' 2008 UU Ware Lecture.***

Van Jones, the eco-justice activist who leads the Ella Baker Center for Human Rights in Oakland, California, delivered the Ware Lecture at the UU General Assembly (June 2008). In this taped video of the event, Van Jones explains the relationship between institutional racism, the environment and economics. His answer to attacking a facet of these issues, concurrently, is to create 'Green Jobs.' In his lecture Van Jones posits that we must be prepared to pull together to fight against racism, environmental disaster and economic inequality.

An open, inquiring, analytical discussion will follow the viewing.
