“The Global Gardener”

with Bill Mollison (102 minutes)

Bill Mollison, internationally acclaimed co-founder of the ecological design system known as "Permaculture" and 1981 recipient of the Right Livelihood Award ("the Alternative Nobel Prize"), takes us around the globe to illustrate how "permanent agriculture" can be applied in the tropics, arid deserts, cool temperate climates, and cities, offering common-sense solutions to escalating threats posed by industrial shortsightedness. (Depending on time/interest, we will show 3-4 segments of this DVD)
